In 2010, the SPCA of East Texas was established to address the need for a local animal adoption center. The SPCA of East Texas is currently developing plans for their beautiful 60 acre site in South Tyler. The vision includes a modern, inviting, family friendly adoption center. The master plan includes a 20 acre dog park, walking trails and picnic sites for the public to enjoy with their pets.

Located in the heart of our community; This adoption center will not be just a "shelter" or "pound" where people drop off animals to be condemned to die. We will help all dogs and cats entering our program find loving forever homes. We want Tyler and Smith County to be recognized as an area of hope for homeless animals.

In 2014, the SPCA of East Texas opened the first local low cost spay/neuter clinic for Tyler. Serving the public, our SNIPPET Clinic has already performed over 3500 surgeries to prevent unwanted litters of puppies and kittens and reduce the number of animals euthanized by local animal control agencies.
